PROJECTS

STUDIO GHIBLI GUIDE

[Live](#) | [Repo](#)

HTML | CSS | jQuery | API

- Fully responsive API integrated application that fetches and displays data based on user input. Features include a dropdown movie selector, random movie generator, and a character search bar created using jQuery.

POETRIVIA

[Live](#) | [Repo](#)

HTML | CSS | SCSS | JavaScript | API | Pair Programming

- Fully responsive quiz application made together with a partner. Uses JavaScript to take the user through a series of questions based on difficulty mode selected and returns the user's final score.

SCILIB

[Live](#) | [Repo](#)

HTML | CSS | SCSS | React | API | Firebase

- Library of scientific publications from the Springer API. Built using React to allow users to search for papers of interest and favourite or save papers for later.

WORK EXPERIENCE

BRIDGE MEDICAL COMMUNICATIONS

Aug 2021 - Jul 2022

Medical Communications Manager

- Managed timelines and capacity for project teams to ensure completion of quality deliverables such as physician education programs, advisory boards, and journal publications totaling \$300k+
- Reviewed and approved scientific documentation for accuracy and readability while adhering to branding and referencing requirements
- Led client meetings and managed client expectations throughout the entire project life cycle for 2 accounts

SIXSENSE STRATEGY GROUP

Sept 2019 - Aug 2021

Medical Communications Associate

- Provided pitch development and additional scientific support during client meetings leading to the acquisition of 3 new accounts
- Managed multiple project teams by creating timelines, allocating workload, and reviewing scientific content
- Reviewed applications, interviewed potential hires, and mentored incoming team members

Medical Writer

- Developed scientific copy and graphics for a variety of commercial and medical materials, including advisory board reports, slide decks, and training modules, which resulted in the promotion to Medical Communications Associate
